PROFESSIONAL SUMMARY

Software Engineer with almost 3 years of experience in web application development, with a background in frontend, backend, and full-stack development. Experienced in building responsive user interfaces, integrating APIs, and developing reliable web applications. Knowledgeable in software development and QA automation, with strong collaboration and problem-solving skills.

WORK EXPERIENCE

Automation QA Intern

TrustArc **March 2023 - July 2023**

- Supported software quality assurance for a client-based application by designing and executing automated and functional test cases, validating application features, identifying defects, and gaining hands-on experience in software testing methodologies, development workflows, and defect management.

Backend Developer

Chronostep Inc. **August 2023 - November 2023**

- Developed two in-house web-based applications by implementing backend functionalities, database integration, CRUD operations, and APIs, while collaborating with the development team to troubleshoot issues, implement features, and maintain reliable and high-performing backend components.

Software Engineer

Chronostep Inc. **February 2024 - 2026**

- Contributed to web-based projects as a Full-Stack Engineer by developing and integrating frontend and backend functionalities, implementing application features and API integrations, and currently focusing on building responsive, user-friendly interfaces while troubleshooting issues and collaborating with cross-functional teams to deliver reliable software solutions.

EDUCATION

University of San Carlos - Talamban Cebu City **August 2021 - December 2023**

Certificate in Computer Technology: Software Development
